"My Bad ft Robert"

Visit "[My Bad ft Robert](#)" on MotoLyrics.com

brown skin, young, fit
unforgettable kiss
from the junk we click like two lovers
in a romance flick
switch from a game to something serious
oh our commitment that was the focus
then i lost control
i said some hurtful things
but everyone does when you're in love
now he won't call me back

what if i said my bad, boy
could we go back to day one, boy
you can keep those cars and crib
those material things
it wouldn't matter to me
young, strong and in love
we made a few mistakes but everyone does
i'm all alone
just come back home to me
what if i said my bad

nice skin, slight (?), mixed with (?)
no doubt about it, flawless
got to know her
yeah i hit it at the park, quick
giving her my last name
one day i pray
if i can fix this
that is the focus
our love is sent from above
disrespected you and said somethings
girl i know
i lost control
need you to take me back

what if i said my bad, girl
could we go back to day one, girl
you can keep those cars and crib
those material things
it wouldn't matter to me

young, strong and in love
we made a few mistakes but everyone does
i'm all alone
please come back home to me
(please come back home)

now we got time and plenty room
if we can work it out from here
yeah yeah
we don't need to follow all your friends around
to interfere, girl
just have my back oh
and girl don't you worry bout that
you know that i got you baby
we could do this thing called love
for eternity
instead of wasting time

what if i said my bad, boy (girl)
could we go back to day one, boy
you can keep those cars and crib
those material things
it wouldn't matter to me
young, strong and in love
we made a few mistakes but everyone does
i'm all alone
please come back home to me

what if i said my bad
(what if i said my bad)
could we go back to day one, boy
you can keep those cars and crib
those material things
it wouldn't matter to me
young, strong and in love
we made a few mistakes but everyone does
i'm all alone
just come back home to me
what if i said my bad
(what if i said my bad baby)
