"Need Your Love"

Hi, look in my eyes, what kind of death you see?
Look up in the sky, what do you see? It's raining
My heart starts to bleed, but it's still beating
Time is running out, i need to do last thing
To save my life
Save my life
my life
my life
Say that you're mine

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love love

Oh look up in my eyes, what kind of color you see?
So look back at the past, do you remember me?
My mind lost in space, but I'm still waiting
Time is running out, i need to do last thing
To save my lifeâ€¦
Say that you're mine

To save my life
Save my life
my life
my life
Say that you're mine

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love

I need your love
I need your love
I need your love
I need your love love love love

I need your love
I need your love
I need your love
I need your love love love

Everybody needs a little bit love
Tell me more about love
Never ever thought it would be this tough
I guess - I guess I'm in love love

Everybody needs a little bit love
Tell me more about love
Never ever thought it would be this tough
I guess - I guess I'm in love love

Love
Love
Love

I need your love

I need your love

I need your love

I need your love [love love]

Say that you're mine

I need your love

I need your love

I need your love

I need your love

Save my life

my life

my life
