I'll fuck up everything  
You say my mind stinks  
I can not be perfect to you  
I can not be you you

Where i am going i see shit  
I'm not standing on my feet  
I can not be perfect to you  
I can not be you you

I'm not scared

Hey baby i'm not scared  
To tell you that i'm bored of your screams  
To get in fight with you, even if you're stronger than me  
Yeah you're right, yeah i am blind  
But i was always blind  
Hey baby can't you see that  
I'm not afraid to fight  
Not afraid to fight

No responsibility  
Don't have another shit in me  
So thats why i'm losing you baby  
The end of the fantasy

Don't hang up a phone when you're talking to me  
Don't lose control, no no  
I don't want to let you down  
Sorry that i i i

I don't care

Hey baby i'm not scared  
To tell you that i'm bored of your screams  
To get in fight with you, even if you're stronger than me  
Yeah you're right, yeah i am blind  
But i was always blind  
Hey baby can't you see that  
I'm not afraid to fight  
Not afraid to fight

I have always let you down  
You always told me that  
Didn't know what to do to, to change me, to make you  
proud of me  
But i tried  
Always tried  
I tried  
Always tried  
I tried  
Always tried

Hey baby i'm not scared  
To tell you that i'm bored of your screams  
To get in fight with you, even if you're stronger than me  
Yeah you're right, yeah i am blind  
But i was always blind  
Hey baby can't you see that

That i'm not scared

Hey baby i'm not scared  
To tell you that i'm bored of your screams  
To get in fight with you, even if you're stronger than me  
Yeah you're right, yeah i am blind  
But i was always blind  
Hey baby can't you see that  
I'm not afraid to fight  
Not afraid to fight
