Oh I see you
24th just down the street
You look up, our eyes they meet
In my heads those words repeating

I need to clear my mind up
Chemics and I forgot
To lock the door I cannot
Resist, oh make his hands stop

My stranger caught me bleak I was too drunk to speak
Oh can you feel the absence there's a lack of me

I am fallen with me starlight
Making poems out of tears
And the sky is way to close now
Is anybody there
Defreeze my soul, Lips so cold
Whisper softly in my ear
Flying high, close your eyes
And just a silent sound when we will jump and hit the
ground
Two strangers shot each other down

Oh who needs you?
Does any one believe you?
Are you too scared to show oh
Does anybody know

You disappear as he inhales you
The angels are so near and you can hear
How they all sing for you, two strangers who
Forever will be ghosts inside this room

I was waiting for the longest time
I was lost but now I'm found
The silhouette I've grown to be
I watch as he's inhaling me

I am fallen with me starlight
Making poems out of tears

And the sky is way to close now
Is anybody there
Defreeze my soul, Lips so cold
Whisper softly in my ear
Flying high, close your eyes
And just a silent sound when we will jump and hit the
ground
Two strangers shot each other down

You disappear as he inhales you
The angels are so near and you can hear
How they all sing for you, two strangers who
Forever will be ghosts inside this room

I was waiting for the longest time
I was lost but now Iâ€™m found
The silhouette Iâ€™ve grown to be
I watch as heâ€™s inhaling me
