It's quiet now  
Broken glass and pieces of me on the floor  
I hear you now, please don't be angry anymore,  
Starring at that door

I wear you on my skin  
Open wounds form every fight, no one can win  
You made me doubt my worthiness, believed your sin  
Murder from within

Don't leave me now  
Don't leave me fallen here to drown  
Who am I now?  
Can't you see you're all I've got  
I take your fists, if you take me too  
Secret hidden well  
And I will never tell  
Don't leave me now  
My body's broken now my heart is too

I'm running now  
Counting every breath I take,  
You're right behind  
Breathing down my neck, what will you do this time?  
And will I survive?

Then you're slowing down  
Say, I don't deserve this but now I can't do without  
Boy, you can use violence, I will hurt for you  
Please just kill this silence,  
If I only knew  
Loneliness is worth than being killed by you

Don't leave me now  
Don't leave me fallen here to drown  
Who am I now?  
Can't you see you're all I've got  
I take your fists, if you take me too  
Secret hidden well  
And I will never tell  
Don't leave me now

My body's broken now my heart is too  
I'll take your fists, if you take me too  
Secret hidden well and I will never tell  
I'm counting every berate I take
