You drink your coffee and I sip my tea
And we're sitting here playing so cool, thinking "What
will be, will be"
But it's getting kind of late now
Oh I wonder if you'll stay now, stay now, stay now, stay
now
Or will you just politely say goodnight?
I move a little closer to you, not knowing quite what to
do
And I'm feeling all fingers and thumbs, I spill my tea,
oh silly me!
But it's getting kind of late now
I wonder if you'll stay now, stay now, stay now, stay
now
Or will you just politely say goodnight?
And then we touch much too much
This moment has been waiting for a long long time
Makes me shiver, it makes me quiver
This moment I am so unsure
This moment I have waited for
Was it something you've been waiting for, waiting for
too?
Take off your eyes, bare your soul
Gather me to you and make me whole
Tell me your secrets, sing me the song
Sing it to me in the silent tongue
But it's getting kind of late now
I wonder if you'll stay now, stay now, stay now, stay
now
Or will you just politely say goodnight?
