I'll be good to you, you be good to me
I'll be good to you, you've been so good to me
I'll be good to you, you be good to me I'll be good to
you, you've been good to me....so good to me

Take it easy, you're tryin' so hard to please me
Doin' it with feelin', can't you see it?
'Cause there's no run-down time for me and you now
There's ain't no room for smilin' faces
There ain't no time to sit 'round wonderin'
There ain't no chance to get this goin' wrong
'Cause we know we've been doin' so good, yeah

I'll be good to you, you be good to me I'll be good to
you, you've been so good to me
I'll be good to you, you be good to me I'll be good to
you, you've been so good to me

Take it easy, why you try so hard, girl, to please me?
Can't you see it? This strong feelin'
You know I never been let down by you, so

Feel it now when you're shakin', so you got to hold tight
don't you see? Oh!

Good to you, good to me (x4)

Feel it now when you're shakin', so you got to hold tight
don't you see?

I'll be good to you, you be good to me I'll be good to
you, you've been so good to me
I'll be good to you, you be good to me I'll be good to
you, you've been so good to me
I'll be good to you, you been so good to me I'll be good
to you, you've been so good to me
I'll be good to you, so, so good to you I'll be good to
you, so good to me...Yeah! Yeah! Yeah!
Feel it when you're shakin', so you got to hold tight
don't you see?
