(Verse)

I didn't really hide, it must've been a small shark

That picked me on a hub while we were swimming in the dark.

We didn't get burned, it must've been a cold spark

That hit me from a far while we were dancing in the park.

And I hear thunder and the rain is falling down on me  
The same thing happened today, this time last year.  
Where the things wrong if you're so right?  
Why does it take so long to find the night?  
I hear the thunder and the rain is falling down on me.

We'll never get caught, driving in a fast car  
Chasing open air and following the stars.  
We never learn when they thought, they say we'll never get far,  
Well, I don't care where they'll be, cause I don't know where I am  
When you're here.

And I hear thunder and the rain is falling down on me,  
The same thing happened today, this time last year.  
When everything's calm inside the storm  
When everything's calm, it feels so warm  
Thunder, and the rain is falling down on me,  
Thunder and the rain is falling down on me.  
The same thing happened today this time last year.  
Where the things wrong if you're so right?  
Why does it take so long to find the night?  
I hear the thunder and the rain is falling down on me.
