Well good morning planet earth and thanks for giving  
birth to yet another stunner.  
It's that Friday after eight again same ol' storry  
same ol' men  
Just a little older  
It's this tention from a far sayin meet me at the bar  
mmh  
Hope you don't have brothers  
Should we stay here inside watch a waterfall dry or  
make the night just somewhat brighter

I wanna take you to a disco so you can dance all night  
We get down on the floor in this house by the shore  
and we forget about our troubles.

It's a chemical reaction of opposite attraction  
The birds are flying lower  
There are cars hovering the streets, it's way  
beyond beliefs  
And bums singin' in choirs.  
It's this tention from the bar sayin' meet me  
from out far  
Pimps better say their prayers  
Should we go out or just stay here and shout over the  
music that seems drunker.
