"Excuse Me Sir"

Excuse me sir do you might have a lighter?
Iâ€™m keeping cold, at least my smokeâ€™s on fire.
Eleven down and eight left to expire, Iâ€™m sorry
mom,
I know you donâ€™t admire such.

If what you see is what you will discover
I hope we learn a lot from one another
Itâ€™s head over heels this city of desire,
itâ€™s hard to see what feeds the fire on itâ€™s own.
when it burns alone

Standing close on a fast lane going gone,
I donâ€™t care but at least Iâ€™m far from home

If what you see is what you will discover
I hope we learn a lot from one another
Itâ€™s head over heels this city of desire,
itâ€™s hard to see what feeds the fire on itâ€™s own.
when it burns alone

Standing close on a fast lane going gone,
I donâ€™t care but at least Iâ€™m far from home

She said, please come here once again
He said, I probably wonâ€™t do that again
