The sky is full of caterpillars. Another way to call you
stellar
Cause living aint easy, when nothing is pleasing me but
you.

I finally found a way to still her, With both my arms Iâ'm
gonna give her
This living aint easy, when nothing is pleasing me but

Lonley nights, with nothing to do but fight
Each other over nothing is allright. Lonley nights.

I finally found a way to still her, With both my arms Iâ'm
gonna give her
This living aint easy, when nothing is pleasing me but
you.

There finally caught a light within her, with all my heart
Iâ'm gonna give
Her, This living aint easy, when nothing is pleasing me
but

Lonley nights, with nothing to do but fight
Each other over nothing is allright. Lonley nights.
