

Goodbye June "Indiana Boys"

Visit "[Indiana Boys](#)" on MotoLyrics.com

Indiana Boys catching fire and getting wild
In that summer moon

Driving round town
Got that old top down
Checking out the scene
Not a care in the world,
We were young and we were chasing girls

Indiana Boys catching fire and getting wild
In that summer moon
Sneak a peek and take a drink but they all know
In June we got to go

They call us trouble mixed in with the shuffle,
But baby look me in the eyes
Now we can light æ~em up, one at a time
I'll still be grinning through that black eye

Get loved, get snowed in, get caught up in the
morning,
Just drink it up and take it in, get up to that hillside,
You'll never get it back again
Indiana Boys catching fire and getting wild
In that summer moon
We gotta go
