

Goodbye June

"Moonshine"

Wicked ambition, loaded with guns
Say it so softly, sounds like such fun
Leading the pathway, to the mountain above
Straight to the ones who call it
Southern fun

Moon shining, so bright
Poisoned girls (boys and girls),
Here's to a night (here's to a good time)
Goodnight and thank you ma'am
This night is about to begin

Tell me your passion, I'll give you my disease
You can drink this dirty water, It will bring you to your
knees
Somebody ask you, you thirsty for wine?
I tell em all the time, it's southern fun

I tell em all the time
I tell em all the time
I tell em all the time
I tell em all the time
