"Return Of The Revolution"

Visit "[Return Of The Revolution](#)" on MotoLyrics.com

There ain't no stopping us now I'd like to say that from
the outset

Not up in this business just to get what we can get but
bet that

We gonna bring it to you loud and clear
How loud I gotta say it 'fore you people start to hear

I can name our problems
But I know a solution bring back the revolution
The revolution comes and we all stand as on
Rises from the darkness and shines like the sun

As the sun gets higher, our church catches fire
Down from our pride and up from the mire
It's a dream that I've had and I hope it comes true
I forgot to say the revolution starts with you

See wisdom and knowledge is one thing that we lack
You've been a Christian how long and you're still on
similar
So I call on Martin Luther and all the reformation back
Then the common people couldn't read God's
revelation

You had to be a monk or a priest or read Latin
That was all before the revolution happened
But the fire cooled down ever since that generation
We put down the Bible and pick up the play station

And we can't defend our faith 'cause we don't even
know it
We say we love his word but pick a funny way to show it
The world walks by and we don't have a thing to say
I call 'em as I see 'em and that's what I see today

The revolution returns the reformation lives on
The great awakening is now sleepers open your eyes
A war is on, our rally cry is no compromise
No compromise, yeah, no compromise
A war is on, our battle cry is no compromise
So throw your fist up and pray the revolution rise
A war is on, our rally cry is no compromise

Our hearts have grown so cold and we've such numb
souls
But shirts and bumper stickers man we got 'em by the
truckload
Is true religion what you have around your wrist
What does the scripture say of this

They honor me with words but their hearts are far away
I call 'em like I see 'em and that's what I see today
So I call on John Edwards who preached us all awake
We try to be emotional but here is our mistake

As a church we lack repentance and we lack true
affection
Not only in our minds but our hearts need correction
And man that's true religion, resignation and contrition
To love each other so much that we'd die before
division

The revolution returns the reformation lives on
The great awakening is now sleepers open your eyes
A war is on, our rally cry is no compromise
No compromise, yeah, no compromise
A war is on, our battle cry is no compromise
So throw your fist up and pray the revolution rise
A war is on, our rally cry is no compromise

So what about you will you join us
Will you admit that the waters around us have grown
You better start swimming or you'll sink like a stone
Do you stand with us or do we stand alone

It's time that we stand up, enlist for the war
I've tasted battle and now I want more
I've known the truth and been cut to the core
But I'm back in the game to even the score

And I mean to go out with both my guns blazing
Amazed at a God who's so truly amazing
To triumph in battle as the spirit enables
Can't turn back the clock but we can turn the tables
