You, someone I knew
away from my side
you now decide
to leave for fresh fields
and leave me in here alone

You say you come up with truth
I presume to know your truthful sight
it's anxiety that confused
you, the future is yours
be aware of the fact that
I'm not willing to make you mine
but

That you're the one I dare to miss
that you're the reason for my bliss
if we go on
I will warm you with my fire
of your love I cannot tire
you can ask me for more

You prefer to do
your own thing in the distance
so I can't offer resistance
you've made your choice too soon
there are things that you might not have known

That you're the one I dare to miss
that you're the reason for my bliss
if we go on
I will warm you with my fire
of your love I cannot tire
you can ask me for more
I'll lead you to my secret place
our summer will amaze
if we go on
for your dignified kind smile
I'll keep waiting for a while
'cause you're the girl I adore

When two people meet, the feeling grows
when one of them leaves, things are weird

when they meet again, the feeling grows again

That you're the one I dare to miss
that you're the reason for my bliss
if we go on
I will warm you with my fire
of your love I cannot tire
you can ask me for more
