

October 31 "Commit To Sin"

Visit "[Commit To Sin](#)" on MotoLyrics.com

We've always been a savage monster
Ripping through the night
And we've always wanted so much more
Than ordinary life
Inside our heart the blood is strong
As the sun goes down
The demons dance inside our veins
As life rolls on and on

With every passing hour we commit to sin
We grasp the claws of evil and commit to sin
With devils on our side we keep on flying high
In the dead of night we commit to sin

We take the stage burning hot
Always running wild
Tempting spectres of the night
For we are midnight's child
On all the fools we turn our back
And live our lives our way
We have no rules, we have no fears
It's all adrenaline

The future is in front of us
And we always shoot to thrill
We are evil on the move
And you cannot break our will
So let the devils have their time
It's best you stand aside
No sense to try and slow us down
We'll take your fucking life.
