War!

Inside his mind it's '69  
Somewhere in Vietnam  
Yes, in his head there's millions dead  
From guns, grenades, and bombs  
For he's the one that feels the thunder  
A prisoner of the times  
Just trapped alone in a mental shock  
And wanting just to die

As evil unfolds before the eyes  
The horror of killing another man  
One nation under God

For all around him there is pain  
So is the wage of sin  
The memories on the battlefield  
Are buried deep within  
For now the future's only past  
And broken is this man  
Eternally his life was lost  
While fighting for his land

As evil unfolds before the eyes  
The horror of killing another man  
One nation under God

War! Forever there is war! For there is war!  
He can thank the USA  
For the way he feels today  
For there is war! There is war!

I see them all around me  
They're all living just to die  
Just trying to make their way  
And moving on  
But nothing stops the torment  
Of those days in Vietnam  
As the battle in their minds  
Is raging on  
Shellshocked mindless madmen  
For deep inside there is war!

They had the strength of courage  
And they had the will to fight  
But in the end they learned  
Just how to die  
And as they live the terror  
Of a time so long ago  
It's now too late  
To save their wasted lives

And so again the music plays  
The battle hymn of war  
For there is war!  
And every night within the dark  
Those nightmares comes again  
For there is war!

War!

So here's the lesson to be learned  
Amongst this grief and pain  
And that's in life there's nothing  
Worth the hell of war again  
So leave the courage to the fire  
And vengeance will stay free  
And liberty will carry on  
For all eternity

As evil unfolds before the eyes  
The horror of killing another man  
One nation under God

War! Forever there is war! For there is war!
