Their souls possessed by evil  
Their lives belong to him  
Millions of years have watched them reign  
The streets of old Salem  
The force is which they worship  
Scars the town with sin  
Those who serve the evil one  
This night will ride with them yeah!

In the name of Lucifer, the burning one  
With the powers of hell itself they have come  
Tonight they are armed with evil  
Evil is their call  
No one can stop this dawning curse  
No one can see it fall  
The devil's won, the evil's come tonight!  
At night they ride again, at night they ride...

In the streets they preach the devil  
Bringing only death  
As little children say their prayers  
Before they lay to rest  
They pray they'll stand the coming terror  
And wake to see the sun  
As unholy soldiers slay them all one by one

The devil's won, the evil's come!  
The stormbringer rides into town  
To bring it to the ground

Our hearts have felt their deviance  
The markings of the beast  
A million years awaiting  
Time to rise up and be free, free, free  
Rise up and be free,  
Free we're all free so rise up and be free!

Their holy land is in despair  
The mighty how they fall  
With burning darkness in their veins  
They're fighting Satan's war

Salem's curse

The devil's won, the devil's come tonight!  
The stormbringer rides into town  
To bring it to the ground  
At night they ride again  
At night they ride again
