## "The Warlock"

He's the warlock he's the midnight man  
With magic he attacks  
The sorcerer of full moons eyes  
His soul is drenched in black  
Within his lair for no one goes  
They know the curse he'll bring  
He beckons fools to come to him  
From the highest hill he sings  
"There is no force as great as mine  
So fall into my arms,  
You can't resist temptations urge  
You can't deny my charm"  
So take my hand my foolish children  
For I'll not bring you harm

The warlock feeds on mindless fools  
The poor who've lost their way  
He takes their minds and steals their souls  
Insisting they'll be saved!

His spell is cast on you  
Sealing the fate of doom  
You took his words too well  
He'll see you down in hell...  
The warlock strikes again  
Another life does end  
A victim of the night will never see...

The light begins yet another day  
Another time and place  
The warlock stands before the town  
Preaching his magic ways  
Another fool does raise his hand  
Waiting to be "saved"

The warlock lives to fool the world  
To trick them with his "sight"  
He takes the mind and steals the soul  
And laughs into the night...

Beware, oh beware, oh beware of the night:  
(The warlock)

Beware, oh beware, oh beware of the night:  
(The warlock)

Warlock, the warlock, the warlock waits for you,  
Beware!
