"Voyage To Infinity"

Visit "[Voyage To Infinity](#)" on [MotoLyrics.com](#)

Modern man in search of life
He wants to touch the stars
A million ways in which to die
He wishes to depart this world
"Grant thee wings and let me fly,
Along with moving winds"
Planet earth now stands below a new life begins...

At one with lovely night, spreading wings to fly
For there is nothing in your way
Accepting challenge that is at hand
Forever live another day!

Among the clouds and on through time
The darkness is no more
At war with none for it is done
Surviving from remorse
Eternal peace has been achieved
The skies a new friend
A wish fulfilled a nightmare killed
A dream that never ends

The life he had has led him to beyond...
The search for peace has come forever more

In death there are no limitations!

Voyage to infinity!
