"What Waits Beyond"

Visit "[What Waits Beyond](#)" on MotoLyrics.com

I once believed in miracles
Until the day did come
The day when all signs of life
Came crashing to the ground
I sadly watched as death
Did take them all away from me
With total sadness in my heart
I wondered what waits

I look into my future
I'm searching for the answers
I'd love to know what waits beyond, Beyond
Waits beyond
Is the world a place between time
Can there be nothing to life
Does no one know what waits beyond, Beyond
Waits beyond, what waits beyond, Beyond

I closed my eyes and lost my mind
I fell into the pain
A neverending loss of faith
Just lingers on and on
I thought all the dreams we shared
And all the times we had
Completely scared I turned away
And knew that death would come

Please, someone tell me what waits beyond

The hell of all my fears

Now standing at the crossroads
The turning point for me
I've learned that life is what it is
And death makes it complete

Beyond what waits
Waits beyond
Beyond what waits, Beyond.
