Dance...

I see it in your eyes
I hear it when you breathe
Hold deep inside your burning, pain and yearning to be free

Bridge:

'cause everytime we touch I'm blinded by your vibe You got it in your system feel the rhythm of the tribe.

Chorus:

Everybody dance for your right

Everybody moving grooving proving it's your night.

Everybody dance for your right

Everybody moving, grooving, proving it's your night.

The angels made me cry
The devil meet the dance
My body goes electric biometric I'm in trance.

Bridge:

'cause everytime we touch I'm blinded by your vibe You got it in your system feel the rhythm of the tribe

Chorus:

Everybody dance for your right

Everybody moving grooving proving it's your night.

Everybody dance for your right

Everybody moving, grooving, proving it's your night.

[Chorus:]
