People can you look around, it's my nightmare
Hey can you lend me a hand I've been through
enough

People if you look behind it's my nightmare
Hey can't you lend me a hand you've taken
enough

Let the siren howl
Til I end it all
Refuse to fall

Electronic high on ultrasonic through the darkness
I'm coming atcha coming atcha coming
atcha
Through the madness

Electronic kids are megaphonic through the darkness
We're coming atcha coming atcha coming
atcha
Through the madness
