We can feel it, when we wake up
We're all travelling,
'Cause tonight we're sitting around the table
The holiday when we're able
To raise a coke in celebration
Telling stories of the days when these friends were all
that we could see
And now our faces gather once again to light the tree
'Cause we know this Christmas

It's something in the air, something in the air
Something that keeps us together
Stronger as we share, we came from everywhere
But tonight we all come together.
Music, familiar face
We can't stop the love that keeps us in one place
There's something in the air, something in the air
It's Christmas in the air that keeps us together

Moved off to different places
To the west and to the east but
It's funny how things they never change
We can go a hundred different ways and stay the same

It's Christmas, our vacation
Made a wish, crossed a nation
Now we are reunited, we can act young
Singing songs we always sung

It's something in the air, something in the air
Something that keeps us together
Stronger as we share, we came from everywhere
But tonight we all come together.
Music, familiar face
We can't stop the love that keeps us in one place
There's something in the air, something in the air
It's Christmas in the air that keeps us together.

We just remembered all the reasons
To keep connected through the seasons
We got the power of the north pole
Building bigger hearts and bigger souls.

It's something in the air, something in the air
Something that keeps us together
Stronger as we share, we came from everywhere
But tonight we all come together.
Music, familiar face
We can't stop the love that keeps us in one place
There's something in the air, something in the air
It's Christmas in the air that keeps us together.

It's Christmas in the air that keeps us together.
