Two punches to the mouth and I'm down
Baby you and I are breaking ground
When did you join the gossip team
Ring tones and fake moans are all you need

I swear you're changing
So give up the faking
You're always a step away
You're always a step away
I'm gonna burn the city down
Just to let you know
Just to let you know

She's licking her lips and all she wanted was a kiss
And I don't know what to do with you
And you've been changing like the colors in your
makeup
And I've been craving almost everything that you
wear

I swear you're changing
So give up the faking
You're always a step away
You're always a step away
I'm gonna burn the city down
Just to let you know
Just to let you know

Two punches to the mouth and I'm down
Baby you and I are breaking down
Baby you and I are breaking down

I swear you're changing
You're changing, you're changing, you're
changing
And I swear, I swear, I swear

I swear you're changing
So give up the faking
You're always a step away
You're always a step away
I'm gonna burn the city down

Just to let you know
Just to let you know
