We were the kings of the summer
We were the kings of the

I miss the summer now that we are older
Cause we were so young and we were dumb
Before big city thinking, we were all drinking
The girls would go crazy, theyâ€™d be with me in the morning

Take me back where we all walked the streets of the better life
We were the kings of the summer

Hey, I miss you
And I really think this new fashion fits you
And all the nights were not enough
And thatâ€™s why in the morning we were still drunk
And we had it all and it never got old
And the girls would go crazy
Theyâ€™d be with me in the morning

Take me back where we all walked the streets of the better life
We were the kings of the summer
Take me back where we all walked the streets of the better life
We were the kings of the summer

We were the kings of the summer
We were the kings of the summer
I donâ€™t know why I left you behind
They were the best years of my life
We were the kings of the summer
