She wanna control what I eat what I wear where I go all
the time.

I had know Idea in the beginning that it would be like
this

I could have sworn everything would be fine
she started switching on me from sweet to soar
she started acting different from nice to foul
I'm saying what did I do now how did I screw up
damn I feel like I just got the worst kind of luck

I've been on my grind now
ive been searching hard and I found out
your obsessive we should call a time out (time out)
theres no reason argue or cry about
what we bout to do right here is time out

Now there are way to many sign that can show me
that this girl that I'm with is not for me
I swear she's crazy if she could she would kill me
dig a ditch and try to bury me six foot deep
Im alway nervous, paranoid at how she carries on
damn it girl i cant even fall asleep
I know shes out to get me she wants to see me hurt
and she wont stop until she sees me laying in the dirt.

I've been on my grind now
I've been searching hard and I found out
your obsessive we should call a time out (time out)
there's no reason argue or cry about
what we bout to do right here is time out
