Free

Freedom is my only friend
Freedom is my only fate

It's been so long since I laid down my head
Trough the expansions of life
I was wandering instead
Until I found you

Take me, let me live out loud
Release me, lift me of the ground

Embrace my soul with your harmony madness
I don't want to spend my life
In one blue chord of sadness
I wanna be free

With my mind free
I can understand rain
And with my eyes closed
I can go anywhere

And I'm free
Yes I'm free
Oh I'm free
I'm finally free
