Make A Stand

Every day
Why do we need it
Life upon life is wasted
So do face the truth
Gather yourself, it can be done
Just don't say that you're trying
Cause man I can tell that you're dying

Let's get on the streets tonight
Fighting our own fight
Because I know
We can make it right

Every god damn day
Yes, we all see it
Will you stand still with no any faith
Will you do nothing but wait
Gather yourself, it can be done
We ought to let them know
This world belongs to everyone

Let's get on the streets tonight
Fighting our own fight
Yes sir, I know
We can make it right

Time to make a stand
The world is in our hand
The world is in our hand
The world is in our hand
