Take Me To Heaven

Just before
The night turns into a day
Show yourself
Let me see your face

And hold me down
Take me away
Don't you let me fade
Hold me down
Take me away
Don't let me lose myself

Take me to heaven
Before the sky comes down
Take me to heaven you know that I'm the one
Take me to heaven you know that I'm the one

Just before
The morning sun reveals
Those ugly glowing twisted faces
Let us get hell out of here

And hold me down
Take me away
Don't you let me fade
Hold me down
Take me away
Don't let me lose myself

Take me to heaven
Before the sky comes down
Take me to heaven you know that I'm the one
Take me to heaven you know that I'm the one
Take me to heaven you know that I'm the one
Take me to heaven you know that I'm the one
