

October Fall

"Falling"

We fall tonight
to the deepest of our hearts
as we sit laying here together

I'm lost tonight
scared of not making
my way home will we ever
make this better?

Will we ever
make our way back home

Breathe in
Breathe out
I'm still screaming
out loud for you
I'm still screaming
your name

I keep falling
faster to this song
I keep it on repeat
so that I can sleep

I wake at night
to another dream of you
I check the clock its turning too

Breathe in
Breathe out
I'm still screaming
out loud for you
I'm still screaming
your name (x2)
