

October Fall "Here We Go From The Top"

Visit "[Here We Go From The Top](#)" on MotoLyrics.com

Here we go from the top let's restart
But the only thing she starts is her car
To drive away from the thing that she hates
And I'm the only thing she leaves behind

And here we go from the top, don't give in
You're giving up but you're still kissing him
You're sliding to the famous spot in your room
Getting closer, closer to the closer
Beauty queen, knows how to make this hurt
Beauty queen, knows how to make this...

Chained down, you lay down
To give yourself away
Before you give in
Don't give yourself away
Here we go from the top she slides down
To the bottom of the bed like she drowned
Under the sheets for another "I love you"
And here she goes from the top, here he goes here he goes

Chained down, you lay down
To give yourself away
Before you give in
Just give yourself away
She's the type of girl
When you leave the room
Handle turn, lock the door
She's smooth at the hips
And I never thought
She would feel like this

Beauty queen knows how to make this hurt...
