

October Fall "Keep It Coming"

I'm turning, twisting in my bed just laying down
Your hands all over me
She whispers softly
"lets move it to the ground"
Take it down like a pill and let it digest
And feel the change in the pit of my chest
When you wake up undress
I'm messed up and choked just another time that
You fucked up

Your eyes got a hold on me and they've got me
Sinking in cement
Don't panic, breathe
When you're walking out on me

Been spending these last years just waiting around
Not gonna sit here and watch what we both
Believed in pass me by
Take it down like a pill and let it digest
And feel the change in the pit of your chest
When I woke up you left
I'm messed up and choked just another time that

You fucked up

Your eyes got a hold on me and they've got me
Singing in cement
Don't panic, breathe
When you're walking out on me

Keep it comin' or I'm gonna let you down
Keep it comin' don't you bother to come back now
Keep it comin' cause I'm gonna let you down
Just don't talk
Just don't talk
Keep it comin' this is done when I leave town
Keep it comin' you know I'll go one more round
Keep it comin' cause I'm gonna let you down
Just don't talk
Just listen
Turn on the TV to find out what you're missing

Your eyes got a hold on me and they've got me singing
in cement
Don't' panic, breathe
When you're walking out on me
