"Now I Lay Me Down"

Visit "[Now I Lay Me Down](#)" on MotoLyrics.com

Out of the silence
Into the blue
You finally remember where you've been
Yo ufinally remember who you are
And you remember the light
Out of the spirit
Into the flesh
The animal heartbeat in the chest
The naked desire
The appetite
But you remember the light
CHORUS
Now I lay me down
To dream
Out of the fire
Into the night
Communion of body into smoke
Human and sacred
The sacrifice
You will remember the light
CHORUS
Now I lay me down
To dream of light
