We just got it all, got it all, got it all.
We, we, we, we just got it all, got it all.

They want it bad, what we have
but they don't understand it
So they just hate, big mistake
'Cause it's not like we planned it

We just got it all, got it all, got it all
We, we, we, we just got it all, got it all

So baby don't look down
We're gonna leave this town
And we can tell them all that...

Nothing's gonna stop us from being together
Middle finger up in the sky if they don't want us
together
'Cause they can't break us down,
We've come too far to look back now
Nothing's gonna stop us from being together

They look at us, in disgust
Well, I just hope they find love
They tell us to get a room
Why can't we kiss in public?

We just got it all, got it all, got it all
We, we, we, we just got it all, got it all

I wanna tell the world,
that baby I'm your girl
And we can tell them all that...

Nothing's gonna stop us from being together
Middle finger up in the sky if they don't want us
together
'Cause they can't break us down,
We've come too far to look back now
Nothing's gonna stop us from being together

We, we, we, we just got it all, got it all, got it all

We, we, we, we just got it all, got it all
We, just got it all, got it all, got it all
We, we, we, we just got it all, got it all

Nothing's gonna stop us from being together
