This city breathes
This city sighs
When I run through it
It keeps moving
It keeps building
But I can't see it

I'm blinded
Let me show you the way
I'm blinded
Let me show you the way

This kiss is soft
Meant to be sweet
But I can't taste it
It feels careless
One of thousands
That hurts me

I'm blinded
Let me show you the way
I'm blinded
Let me show you the way

Give me something to discover
Something new in what exist
There is so much happening
But I can't find the blizz
