### "Out Of Your League"

Visit "[Out Of Your League](#)" on MotoLyrics.com

The world you have created  
Is a burden on your shoulder  
It's highly overrated  
The way you think is right

The sun is slowly rising  
While you wake up in a dream  
Build on imagination  
New ground under your feet

This is out of your league  
But I still believe  
Make you part of my team  
Yes I still believe

Build your castles in the sky  
Keeps your dream up high

(Solo)

This is out of your league  
But I still believe  
Make you part of my team  
Yes I still believe

Build your castles in the sky  
Keeps your dream up high

This is out of your league  
But I still believe  
Make you part of my team  
Yes I still believe

Build your castles in the sky  
Keeps your dream up high
