I've lost myself this evening
Remind me to keep breathing
Now I've lost my heart

Just start believing
I felt like a new born king
It takes me back to the start

Oh the world stops turning
And the wind stops blowing
But the sun starts shining
When you break the silence

And my heart starts glowing
When I think about you
Desire's growing
I can't go without you

When will I see you
When will I see you
When will I see you again?
When will I see you
When will I see you
When will I see you again?

Bruises slowly filling
Silence is killing
Waiting for a sound

Lights are gently fading
The band starts playing
For you

Oh the world stops turning
And the wind stops blowing
But the sun starts shining
When you break the silence

And my heart starts glowing
When I think about you
Desire's growing

I can't go without you

When will I see you
When will I see you
When will I see you again?
When will I see you
When will I see you
When will I see you again?

Oh the world stops turning
And the wind stops blowing
But the sun starts shining
When you break the silence

And my heart starts glowing
When I think about you
Desire's growing
I can't go without you

When will I see you
When will I see you
When will I see you again?
When will I see you
When will I see you
When will I see you again?
