Don't say that this didn't hurt
I've cried all night
And now is your turn
One way to get back at you
Is to turn it around
And do the same to you
Don't say don't say don't say don't say
That this didn't hurt
Don't say don't say don't say don't say
That this wouldn't work
For you
For you
One day I will forget
I called all day
Without one regret
I called all day
Without one regret
Don't say don't say don't say don't say
That this didn't hurt
Don't say don't say! don't say don't say
say
Wouldn't work
Don't say!. Don't say! don't say
Don't say
