She's futuristic
She's not my body
And she's got me rockin' hard on the middle of
the dancefloor
I can't escape it,
I just can't take it
This beat so hard
I'm locked in the middle of the dancefloor

I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance,
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance,
Unless I can dance with you, all night

Girl, girl you a star
Let's put this on the floor
We in the motion picture your body's rated-r
When we step in the function
You know we in control

Cause the beats so hard
That it melts and it burns light up and you can't let
go
Can't let go, can't let go
Can't let go, you can't let go
Can't let go
Can't let go, can't let go
Can't let go, you can't let go
Can't let go

I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night

Let the beat go, whoohoooo
Let the beat go, whoohoooo
Let the beat go, whoohoooo
Let the beat go, whoohoooo

She's so amazing
She got me dancing
We in the music, aah
This is our anthem
Tonight we celebrate this moment and we won't
stop now

She's so amazing
She got me dancing
We in the music, aah
This is our anthem
Tonight we celebrate this moment and we won't
stop now

I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night
I don't wanna dance
Unless I can dance with you, all night

Let the beat go, whoohoooo
Let the beat go, whoohoooo
Let the beat go, whoohoooo
Let the beat go, whoohoooo
