Justin Hayward)

Life is a struggle

Baby you got to choose

Hear the call of the wild wind

What have you got to lose

So take off that coat and kick off those crazy shoes

I can see by your smile that you're ready

Well I'm ready too

Oh life is a puzzle

Baby you've got to try

But don't let it get you

Don't let it pass you by

'Cos here and now darling

Here and now you got me

And something inside me tells me it's meant to be

Will it be alright

I'm getting a message from someone

Will it turn out right

It's not just a face in the crowd

It's not just a face in the crowd

Face in the crowd

Will it be alright
I'm getting a message from someone
Will it turn out right
It's not just a face in the crowd
It's not just a face in the crowd
Face in the crowd
Life is a struggle
Baby you got to choose
Hear the call of the wild wind
What have you got to lose
So take off that coat and kick off those crazy shoes
I can see by your smile that you're ready
Well I'm ready too
So just close your eyes
I'm getting a message from someone
Through a clear blue sky
It's not just a face in the crowd
It's not just a face in the crowd
Face in the crowd
