"Raised On Love"

We won't be sleeping on our own tonight

The star that guides us

Is still shining bright

And in the darkness

There will always be a light

I think I know now

What is wrong and what is right

'Cause I was raised on love

Yes, I was raised on love

An I thank heaven above

For being raised on love

Seems like Venus was around my sign

She must have been there

In that house of mine

And when she tells me

That I'm on the right track

When she tells me

There's no looking back

'Cause I was raised on love

Yes, I was raised on love

And I thank heaven above

For being raised on love
