Little brother's got a habit  
That he thinks he's getting under control  
And he's selling all our love  
And best wishes as the hunger grows  
Living by the scripture on the subway walls  
He wants to be a rebel but he can't find a cause  
He needs something to believe in  
He needs something to believe in  
All he ever wanted was to get away  
Little sister's getting serious  
With a fella nearly twice her age  
And she's aiming to move in with him  
As soon as they can find a place  
There's no getting through to her - There's no other way  
You can't learn from mistakes that somebody else made  
She needs something to believe in  
She needs something to believe in  
All she ever wanted was to get away  
Caught in the void of no hope and no choice  
It's a nobody win situation

What can they do it's a catch 22

It's a breakdown in communication

Mum and Dad are so confused

Little wonder they don't understand

Little wonder there's a wind of change

Blowing through this land

Nobody's guilty - it's a sign of the times

But we won't see the future until we open our eyes

We need something to believe in

We need something to believe in

We need something to believe in

We need something to believe in

All we ever wanted was to get away
