Where did we go wrong

We had all the magic to put us on our way

And all the tragedy that we ever want to see

But you know I'm right

When I say the best is yet to come

Where did we go wrong

Was it so enlightening we couldn't find our way?

All so frightening

We couldn't see which move to make

But you know I'm right

When I say the best is yet to come

And if you leave me now

Like you say you might

Oh please don't leave me now

'Cause I know, if you do

None of this will come true so

Where do we go now

Now your heart is aching

And leading you astray

Me I'm burning up

Tryin' to get you to stay  
'Cause you know I'm right  
When I say the best is yet to come  
And you know the best is still to come  
And if you leave me now  
Like you say you might  
Oh please don't leave me now  
'Cause I know, if you do  
None of this will come true, so  
Where did we go wrong  
We had all the magic to put us on our way  
And all the tragedy, that we ever want to see  
But you know I'm right  
When I say the best is yet to come  
And you know the best is yet to come
