Right on the edge of the world  
Where the answer's digital  
And the solutions are all silicon  
The questions all what can be done  
Never what is right or wrong  
There's a virtual wave to surf along  
Question the validity  
Of human mortality  
A page says superseding God  
And they take all major cards  
Now you too can laugh and live forever  
Is the answer deep inside  
The ghost, ghost in the machine  
Entity or dream  
It matters not to me  
The ghost, ghost in the machine  
Silent and unseen  
Ghost in the machine  
Do you want to live forever?  
Do you want to live?  
Terabytes of memory  
Holding consciousness complete  
A solid state of immortality  
Saint of all technology  
Bless us in our infancy  
For they know not what they did to me  
Question the validity  
Of human mortality  
The ghost, ghost in the machine  
Entity or dream  
It matters not to me  
The ghost, ghost in the machine  
Silent and unseen  
Ghost in the machine  
The ghost... the ghost... it's me!
