"Wide Awake"

i am so wide awake
so wired and I don't like this state
I'm seeing into spots
that narrow in to places inside

I fought for what I got
and when I sleep the dust remains
I won't go when you go and where it takes you no one
knows

Oh and you come round and you often do
We go looking for illusions at all anything at all
All the spaces that we cover and we often do
are we going back there where
where we started from
all these spaces that we cover and we often do
are we going back there where
where we started from

the spaces on the trail
I'm trying to hear what you say
the spaces on the wall
I'm trying to see what you see
I fought for what I got
and when I sleep the dust remains
I won't go and when you go and where it takes you no
one knows

Oh and you come round and you often do
We go looking for illusions at all anything at all
All the spaces that we cover and we often do
are we going back there where
where we started from
all these spaces that we cover and we often do
are we going back there where
where we started from

Oh I got this feeling that were going in circles too
going back around and I don't know what to do
Take it all down
take it all down

take it all down
tear it all down
