"The Long Goodbye"

I smile to crack this angry face
The endless days the endless ways
She says she fills up the empty space
I wait in vain
Fade away away away
Fade away away away
I fade away away away

No you never know what you've got until it's gone (its
wasted, it's wasted)
And when it's gone well you know it's gone forever
When you take the long goodbye
No one here ever says they all move on (its wasted, it's
wasted)
And when we're gone well you know we're gone
forever
When you take the long goodbye

And as the flower slowly dies
We find a way other wastes of time
The question is what's left to try
I watch the rain
Fade away away away
Fade away away away
I fade away away away

No you never know what you've got until it's gone (its
wasted, it's wasted)
And when it's gone well you know it's gone forever
When you take the long goodbye
No one here ever says they all move on (its wasted, it's
wasted)
And when we're gone well you know we're gone
forever
When you take the long goodbye

No you never know what you've got until it's gone (its
wasted, it's wasted)
And when it's gone well you know it's gone forever
When you take the long goodbye
No one here ever says they all move on (its wasted, it's

wasted)
And when we're gone well you know we're gone
forever
When you take the long goodbye...
