

HEDJE "Operation Time"

Visit "[Operation Time](#)" on [MotoLyrics.com](#)

It's Operation time,
Open her up and see what's inside.

Im getting scrubbed up, gonna change your life
You say you feel fine, but I don't think it would hurt to
try.

Things are always better when you're living in your
youth,
I'll imagine what you need,
Then I'll give it all to you.

It's Operation time,
Open her up and see what's inside.

Let me help you i can give you a lift,
Your love is something special just consider it a gift
An older lady with a knack for the chaps,
I've skilled hands so sit back and relax.

I'll be done before you know it guaranteed you'll be
pleased,
And when you're hungry for more you'll be coming to
me.
I'm a specialized man I do what I can,
I'll probably fix your face but i can't be your man

It's Operation time,
Open her up and see what's inside.

Well leave it to her mother to telephone the news,
that she's been letting other guys put their feet inside
her shoes.

It's Operation time,
Open her up and see what's inside.
