As time pass away I miss the moments we share
Laughing on the couch with my fingers through your
hair
I know sometimes you feel I'm not here
But you stole my heart girl I swear

When we're together there's nothing you should fear
Yeah, I wanna make that clear
Now your gone and the house seems bare
I got a hole in my heart so I fill it with these beers

Trying not to blink while I fight back tears
I'm sorry I can't be the man that you endeared
I'm here your gone we shared a bond but now I'm all
alone

Believe me I miss you
I hope that your okay
I need this my own way
My own

See I never really knew what I had
So I found my self living in the past
Something's wrong I know I never asked
Now it seems like my whole world crashed

Im sorry that I couldn't love you
Appreciate hug you
I put everything above you
Now I have everything but you

I'm sorry that I never did right
Get mad just to start fights
So I can disappear all night
I know life isn't all hype

So just listen when play this
On your stereo or playlist
And it hurts me to say this
But I know I gotta say

Believe me I miss you

I Hope that your okay
I need this my own way
My own

Yeah I miss your smile
But it's only gon' hurt for awhile
you left me in the dark
But you should learn how to play part

Yeah? I might act a bit shameless
You wouldn't leave if I was famous
And on the moment I swear
you had my heart now you really don't.
