Time's got good and worse
Now you know where I go
When I got ditched, I was alone
My limit feelings approached zero..
And now I sing because I know you there
And I want you to come back from somewhere
And I know you miss me too
When I don't know where are you
Why the hell you are doing this to me say..
Please don't stop me..
Let me go my way....

How it feels to be that one
What you made me that I want to run
Away from you
Away from my home
Away from everywhere that I know..
It seems to me a stupidity
My curiosity that has made me
A misery, a sting of bee
A dry tree I don't want to be..
I'd better kill myself and be free..
Please don't stop me
Let me go my way....

Now I'm cleaning myself with purity
A weapon against you, my vanity...
And I know you miss me too
When I don't know where are you
And now I don't care if you want me
Or if you don't want me..
So now I'm screaming it loud and clear
For you only for you to hear
You listen me clearly..
I'm going my way!!
